FOR IMMEDIATE RELEASE

***Force Of Nature Live In NYC* DVD gets worldwide distribution via Burnside BDC; In Stores May 19th!**

HIGHLAND PARK, NJ – April 19th, 2017 – Following their critically-acclaimed release *How I Won The War* (Jem Records, 2015), **The Grip Weeds** present their first concert DVD ***Force Of Nature Live In NYC***. After a successful pre-sale to their fan base via www.gripweeds.com, ***Force Of Nature Live In NYC*** is available worldwide on May 19th from Ground Up Records and Burnside Distribution.

Filmed at the Tribeca Performing Arts Center in New York City, the 90-minute concert film showcases The Grip Weeds' ability to channel high-octane rock and even a short but sweet acoustic set with equal doses of ability, abandon and authority. ***Force Of Nature Live in NYC*** is released on DVD as a limited edition of 750 individually numbered copies.

Tribeca PAC was the perfect venue to harness the energy of the band in a professional setting. "It was almost an afterthought to film it, but good thing we did," said **Kurt Reil**, singer and drummer for The Grip Weeds. "The band was on fire, the crowd was into it and luckily we caught it all."

Bruce Springsteen's E Street Band founding member **Steven Van Zandt** granted six of the 22 songs featured in ***Force Of Nature Live In NYC*** the distinction of "Coolest Song In The World" on his Sirius/XM and Internationally syndicated radio show **The Underground Garage**. The set list is comprised of songs culled from each of the band's six studio albums. Fans from all over the world who've always wanted to see The Grip Weeds live will relish the lightning captured on this DVD release.

While currently serving as the touring band for **Mark Lindsay** (former lead singer of Paul Revere & The Raiders) and providing occasional backup to **Smithereens** frontman **Pat Dinizio** on his solo outings, The Grip Weeds have also collaborated on recordings and performances with the likes of **Brian Wilson**, Lou Reed/Captain Beefheart/Jeff Buckley guitarist **Gary Lucas** and **Beatles** session drummer **Andy White**. They have amassed a widely-praised back catalog with a loyal fan base of their own, earned through years of performing and touring in the United States and Europe. 2017 finds The Grip Weeds in the studio recording their seventh full-length album while also performing shows in support of ***Force Of Nature Live In NYC***.
